MEMORANDUM

SUBJECT: Omaha Lead SIP Modeling Analysis

FROM: Joseph A. Tikvart, Chief *J. Tikvart*
Source Receptor Analysis Branch, MDAD (MD-14)

TO: ☒ Regional Modeling Contact, Regions I-X

In accordance with standard Model Clearinghouse operating procedures I have attached a copy of an OAQPS/Model Clearinghouse response to Region VII, along with the incoming request from the Region. The issue deals with the Omaha lead SIP, which is currently in litigation. You recall that I sent a memorandum to you on September 18, 1985, dealing with this same issue, in which I asked that the response and incoming memorandum not be released without first checking with the Region VII Regional Counsel's Office.

Since the Omaha lead SIP is still in litigation, I again ask that you follow the same procedure with regard to the attached memoranda, i.e. do not release them without first checking with the Region VII attorneys. Thank you for your cooperation.
