NPDES FORM 6100-28

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, DC 20460 ANNUAL REPORT FOR STORMWATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY UNDER THE NPDES MULTI-SECTOR GENERAL PERMIT

FORM Approved OMB No. 2040-0004

Permit Information	ı

Report	Year:	2018

NPDES ID: IDR053234

Facility Information

Facility Name: DMP 307 UPPER

Facility Point of Contact

First Name Middle Initial Last Name: Jennifer Godwin

Organization:

Title:

Phone: 208-245-2096

Ext.

Email: jgodwin@optaminerals.com

Facility Mailing Address

Address Line 1: CARPENTER CREEK RD, MILE MARKER 6

Address Line 2: City: FERNWOOD

ZIP/Postal Code: 83830 State: ID

County or Similar Division: BENEWAH

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

This site was inaccessible until April due to snow. The site was fully vegetated at this time and vegetated berms have been removed in pr evious years. Reclamation was completed on the lower portion of this site during September. Seed, fertilizer, and straw were spread during October.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

No discharge occurred on this site as it was fully vegetated.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

NA

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

No corrective actions were conducted on this site although seed, fertilizer and straw were spread during October on the freshly reclaimed area.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
