

Permit Information

Report Year: 2019

NPDES ID: IDR053142

Facility Information

Facility Name: CENTRAL PAVING CO., INC. MIDDLETON PIT

Facility Point of Contact

First Name Middle Initial Last Name: Terry McEntee

Phone: 208-338-0818 Ext.:

Email: terry@centralpaving.com

Facility Mailing Address

Address Line 1: MIDDLETON ROAD AND LANDRUFF LANE

Address Line 2: 5319 S APPLE STREET

City: MIDDLETON

ZIP/Postal Code: 83644

State: ID

County or Similar Division: CANYON

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

The Middleton pit has been inspected quarterly and when required due to rainfall. There was no discharge from this location. Active crushing activities were not performed at this location in 2019. The inspection consisted of looking at all potential outfalls to determine if there was a discharge. The perimeter of the pit was also inspected.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

There were no crushing operations in 2019 at the Middleton location. The visual quarterly assessment determined there was no discharge and no new outfall areas in the pit.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

Due to no discharges from this location no sampling has taken place.

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

Central Paving Co., Inc is in compliance with our MSGP permit. There was no corrective action done in 2019.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
