Community Education
Community Action Plan
development

Time line

Phase I Oct – Dec 2020

Development

Phase II Jan – Dec 2021

Outreach & Collect Data

- Implement Pre-Survey – Collect data,
- Initial Draft of Community Action Plan
- Collect Energy Assessment Data
- Analyze Air Monitoring Data

Phase III Jan – Sept 2022

Report Findings and Finalize Plan

- Develop Energy Assessment Data
- Continue to Collect/Analyze Air Monitoring
- Outreach meetings
- Media Outreach
- Implement Post Survey – Collect/Analyze
-
-

OUTCOMES

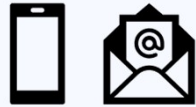

Store data from air monitoring to be stored in Tribal data base.

Develop a Quality Assurance Project Plan (QAPP), to create a more complete picture on the correlation between air quality and climate change health.

Community Action Plan for the best interest of the Fort Hall Indian Reservation.

Use information for future projects as a baseline.
