

SMOKE MANAGEMENT PLAN

UPDATE: 05.30.2019

POTENTIAL CHANGES

- Adjusted Smoke Management Decision Timing, whereby we give or deny approval by COB the day before ignition.
- Removing the prohibition on weekend summer burning.
- Changing the standard in approval criteria #1 from intrusion to exceedance of standards.
- Integrating just-passed legislation in the state Senate that permits burning in Urban Growth Areas (UGAs).

TIMELINE OF CHANGES

- DNR is working with EPA and Ecology to develop a protocol to assess what, if any, air quality impacts accrue from these changes.
- Will be working with partners on adoption into the Clean Air Act SIP.
- DNR will also complete some level of SEPA analysis.

OUTSTANDING QUESTIONS

- **Enforceability:**
 - **Washington Administrative Code (WAC) revisions to:**
 - **Articulate specific enforcement powers need to implement plan, and to**
 - **Bring DNR's WAC into alignment with current best practices**
- **EPA/Ecology Process:**
 - **What level of analysis is required for adoption?**
