

Permit Information

Report Year: 2018

NPDES ID: IDR053133

Facility Information

Facility Name: GOLDEN MEADOWS EXPLORATION PROJECT

Facility Point of Contact

First Name Middle Initial Last Name: Kyle E Fend

Organization:

Title:

Phone: 208-901-3047 Ext.

Email: fend@midasgoldinc.com

Facility Mailing Address

Address Line 1: STIBNITE ROAD

Address Line 2: City: STIBNITE

ZIP/Postal Code: 83677 State: ID

County or Similar Division: VALLEY

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

During the previous year no new ground disturbing activities were conducted at the project site. Monthly inspections, and inspections triggered as a result of measurable precipitation events were conducted and documented. Electronic copies of inspection documents are kept on the company servers and hard copies are kept at the project site.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

Quarterly visual assessments were not conducted during the first three quarters as no discharges occurred during that time period. A quarterly visual assessment was conducted for the 4th quarter following multiple storm events that subsequently generated sufficient runoff to discharge. Visible observation of the runoff did not indicate any stormwater contamination contained within the sample. The sample was collected and documented in accordance with the permit.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

NA

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

During the previous year no new ground disturbing activities were conducted at the project site. Monthly inspections, and inspections triggered as a result of measurable precipitation events were conducted and documented. At this time there are no outstanding corrective actions. Corrective actions and maintenance measures completed over the course of the year include predominantly sediment trap clean-out, re-building stormwater ditch following a debris slide, and silt fence maintenance and replacement.

Certification Information

Certified On Behalf Of:

Responsible Official: Robert Barnes (BBARNES@MDASGOLDCORP.COM)

DAR Designated: 12/19/2016 12:00 AM

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. Signing an electronic document on behalf of another person is subject to criminal, civil, administrative, or other lawful action.
