General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

The City of Boise Aviation Department has submitted one annual report for BOI and all tenant/operators under the comprehensive SWPPP which includes our facility. Please refer to NPDES Tracking ID IDR053107.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

The Boise Airport is located in an area where limited rainfall occurs during many parts of the year (e.g., arid or semi-arid climate). Discharge from Outfall 001 occurred once, February 2019. No measurable storm event discharge occurred in 2019. Please refer to NPDES Tracking ID IDR053107.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

Not Applicable

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

Please refer to NPDES Tracking ID IDR053107.
