

Permit Information

Report Year: 2019

NPDES ID: IDR053107

Facility Information

Facility Name: BOISE AIRPORT

Facility Point of Contact

First Name Middle Initial Last Name: Jill Singer

Phone: 208-972-8394 Ext.:

Email: jsinger@cityofboise.org

Facility Mailing Address

Address Line 1: 3201 AIRPORT WAY, SUITE 1000

Address Line 2:

City: BOISE

ZIP/Postal Code: 83705

State: ID

County or Similar Division: ADA

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

I certify that the City of Boise, Airport, is in compliance with the effluent limitation guideline for airfield pavement deicing by not using airfield pavement deicers that contain urea (MSGP Part 8.2.8.1).

Annual Routine Facility Inspection conducted September 2019, no discharge occurred during time of inspection. No previously unidentified discharges or pollutants noted. No evidence of pollutants entering the drainage system leading to offsite discharge. Drainage structures inspected from November 2018 through September 2019, cleaning and maintenance as needed. No repairs or replacement required. Perimeter controls maintained to prevent ground flow from leaving property and to prevent sediment and erosion issues.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

The Boise Airport is located in an area where limited rainfall occurs during many parts of the year (e.g., arid or semi-arid climate). Discharge from Outfall 001 occurred once, February 2019, observed no evidence of storm water pollution. No measurable storm event discharge occurred in 2019.

I certify that the City of Boise, Airport, is in compliance with the Permit.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

N/A.

No benchmark monitoring per Sector S as I certify that the City of Boise, Airport, is in compliance with the Benchmark Monitoring Guideline by not using more than 100,000 Gallons of pure glycol in glycol based deicing fluids. The Boise Airport does not use airfield pavement deicers that contain urea.

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

No unauthorized release, discharge, or incidents of noncompliance (e.g, spill, leak, or discharge of non-storm water not authorized by this or another NPDES permit to a water of the US) occurred at the Boise Airport. No evidence of pollutants entering the drainage system leading to offsite discharge.

I certify that the City of Boise, Airport, is in compliance with the permit.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
