NPDES FORM 6100-28

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, DC 20460 ANNUAL REPORT FOR STORMWAITER DISCHARGES ASSOCIATED WITH

FORM Approved OMB No.

6100-26		INDUSTRIAL ACTIVITY UNDER THE NPDES MULTI-SECTOR GENERAL PERMIT	2040-0004
Permit Information			
Report Year: 2019			
NPDES ID: <u>IDR053196</u>			
Facility Information			
Facility Name: TEN MILE PL	ANT		
Facility Daint of	Contact		
Facility Point of			
First Name Middle Initial	Last Name: Shane Davis		
Phone : 208-221-8730	E	xt.:	
Email: shane.davis@hoist.co	om		
Facility Mailing	Address		
Address Line 1: 1880 TEN M	ILE PASS ROAD		
Address Line 2:		City: BANCROFT	
ZIP/Postal Code: 83217		State: ID	
County or Similar Division:	CARIBOLI		

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

Facility inspections were completed as required. There were no observations made which had the potential to impact stormwater. The F acility remained in an idle status for all of 2019.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

There were no discharges from the Facility during the reporting period; therefore, no visual assessments were made.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

There were no discharges from the Facility during the reporting period; therefore, no benchmark monitoring was conducted.

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

Facility roads, berms, and settling ponds were maintained to manage stormwater during the reporting period. The Facility remained in an idle status for all of 2019.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel

properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
